PROFESSIONAL SUMMARY

Software Developer with professional experience developing and maintaining production web and mobile applications for restaurant and point-of-sale systems. Skilled in **full-stack development** using React, React Native, TypeScript, Node.js, Express.js, REST APIs, JWT authentication, Socket.IO, Microsoft SQL Server, and cloud deployment. Experienced in payment gateway integration, PayNow, POS hardware integration, real-time systems, printing infrastructure, API development, database operations, production troubleshooting, and technical support. Supported production systems across **10+ restaurant and store locations in Singapore(Remote)**.

PROFESSIONAL EXPERIENCE

Software Developer Feb 2026 – Present
Unipro Softwares SG Pte. Ltd. uniprosg.com

- Develop and maintain production web and mobile applications for restaurant and point-of-sale operations using **React, React Native, TypeScript, Node.js, Express.js, and Microsoft SQL Server**, supporting systems across **10+ restaurant and store locations in Singapore**.
- Develop and integrate **REST APIs, JWT authentication, SQL queries, Socket.IO real-time communication, payment gateways, PayNow, and third-party services** across production applications.
- Provide technical support across approximately **12 client environments**, troubleshooting application, payment, networking, and hardware-related issues and assisting with deployments and maintenance.
- Integrate and troubleshoot **POS hardware and peripherals**, including thermal printers, Kitchen Display Systems (KDS), cash drawers, customer displays, and local printing infrastructure.

EDUCATION

Master of Computer Applications (MCA), SRM Institute of Science and Technology Sep 2024 – May 2026

Bachelor of Computer Applications (BCA), The New College, Chennai Nov 2021 – May 2024
CGPA: 7.36/10

Higher Secondary Examination (XII), Sairam Matriculation Higher Secondary School Apr 2021
Percentage: 82%

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, HTML, CSS, TailwindCSS

Mobile: React Native, Expo, Expo Router

Backend: Node.js, Express.js, REST APIs, JWT, Socket.IO

Database: Microsoft SQL Server, MongoDB, Firebase, Supabase, SQL Queries

Cloud & Deployment: AWS, Railway, Netlify, Cloudflare, Expo EAS

Networking: TCP/IP, LAN, HTTP/HTTPS, WebSockets, CORS, SSL/TLS

Development: Full Stack Development, API Integration, Authentication, Payment Gateway Integration, Real-Time Systems

Tools: Git, GitHub, Postman, VS Code, npm

POS & Hardware: PayNow, Payment Gateways, Thermal Printers, KDS, Cash Drawer, Customer Display, Print Bridge

Soft Skills: Problem Solving, Troubleshooting, Technical Communication, Client Support, Team Collaboration, Adaptability

PROJECTS

Smart-POS – Restaurant Point of Sale System

- Developed a production POS platform using **React Native, Node.js, Express.js, and Microsoft SQL Server** for billing, order management, payments, kitchen operations, settlements, and reporting.
- Implemented **payment gateway and PayNow QR payment integration** with connected POS payment workflows.
- Integrated **thermal printers, Kitchen Display Systems (KDS), cash drawers, customer displays, and Print Bridge** for POS hardware operations.
- Developed real-time order synchronization using **Socket.IO, REST APIs, and JWT authentication**.

Hawker POS – Lightweight Restaurant Point of Sale System

- Developed a lightweight POS application supporting **menu management, cart operations, billing, sales reporting, void transactions, and payment processing**.
- Integrated **payment gateway services and Sunmi built-in printer SDK** for payment processing and automated receipt printing.

Freelance Web Development View Portfolio

- Developed and deployed responsive **portfolio and advertising websites** using React, JavaScript, HTML, CSS, and TailwindCSS.
- Implemented responsive layouts, reusable components, custom UI requirements, and production deployments.
